

## **Corporate News**

### **Update 4th Quarter 2014 and 1st Quarter 2015**

#### **Third new drill in Kentucky also successful Current oil extraction from 5 wells**

Also the third new drilling in Kentucky was successful and hit oil. Currently there are discussions about drilling deeper for higher future production. Thus NWO is stakeholder in 5 producing oil wells (2 new drillings and 3 reworks). On one of the leases belonging to NWO its planned to install a "Water Injection Well". Set-Up and installation took place and we are awaiting state approval to be turned on soon. Benefits will be a) we can dispose the water coming from our wells, b) we are able to dispose water from the surrounding neighbouring wells belonging to other owners and will get paid for that and c) the disposed water will enhance the production of our own wells.

#### **"Dean Creek oil field", Alabama**

As published, it is planned to commence drillings on the "Dean Creek oil field". Financing shall be provided through an international acting US-american investment company. This company has commissioned a Due Diligence Report as well a field development plan. This was done by a special Canadian company and has been finalized during 4th quarter 2014. Against all odds to negotiate a final investment contract in December 2014 this US company requested a Feasibility Study due to the decreased oil prices. This Study was finalized within 1st quarter 2015. Currently a final meeting will be scheduled.

#### **Engagements Iraq eclosed**

End of 2014 NWO closed all activities in Iraq definitively. Financial expenses has been limited because there has been no financial investment besides simply some travel cost. The issued shares (mainly concerning "Kandal oil refinery") fall back to the company and the respective asset allocation will take place in the year 2014 Balance Sheet. Mr. Azad Murad no longer serve as Director of the Company.

#### **Innovative form of energy production**

NWO as early as today would like to inform that the Company is just in the finalizing process to acquire and implement an innovative form of energy production. This revolutionary technology is highly developed and very sophisticated in its nature and will offer numerous application possibilities. More information will be provided middle of this year.

#### About Northwest Oil & Gas Trading Company, Inc.:

Northwest Oil & Gas Trading Company, Inc. is an investment company in the oil and gas industry. In the US the focus is on the acquisition and reactivation of oil- and gas-fields to expand these to a maximum production by using modern methods. The objective is occupying niches that appear uninteresting and not lucrative enough for large corporations. With its Joint Venture companies NWO is involved in several projects including refinery projects. NWO is able to offer an innovative technology to build and run a refinery with extremely competing terms and conditions. The company was founded in May 2007. Its first years were characterized by the preparatory work for today's business. The company has authorized and issued 50 Million fully paid-in shares with a nominal value per share of 0.20 US-Dollar.
