

Shareholder information concerning our "Kentucky Bowling Green 1" project

Become an owner of an oil well - together with us !

Dear Ladies and Gentlemen, honoured Shareholders,

lots of shareholders asked about more information concerning our "Kentucky Bowling Green 1" project. Therefore please read the following comments:

We are glad to be able to offer to our shareholders this excellent investment opportunity. This offer has been designed exclusively for our shareholders.

Becoming an owner of an oil well will offer you lots of benefits. With this you can realize one of the most productive investments worldwide.

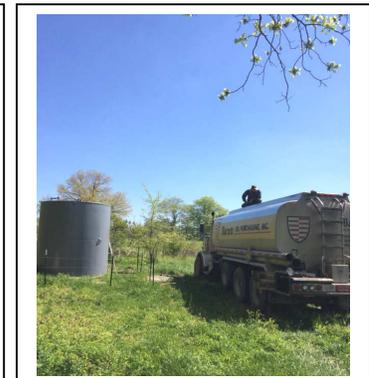

And - doing this together with us - we will reach a **mutually win-win-situation**. With your involvement you invest into a capital investment with excellent profit opportunities for you privately **AND at the same time** you support your stock company to grow. You will help to increase the company's value from which the share price will benefit at the proposed stock exchange listing.

As explained, the United States of America are the only one region worldwide where private persons can operate their own oil well. In the US it is very common that investors mutually invest into the development and exploitation of crude oil. Therefore this kind of investment is strongly regulated and controlled by several authorities.

Starting from only 7.500 US\$ you can participate in the very lucrative source of income offered by an investment **directly** in an oil well. Successful drilling and the production of 5 barrels of oil per day - which is the expected midcase - will offer you a fast return on investment, a double-digit interest rate in the first years and a steady income for 15 years or more. With this we can beat the investment market worldwide.

Please keep in mind, that this exciting opportunity is based on the current positive combination of a) investment directly in the oil drilling b) the current low drilling cost and c) the extremely favourable geological conditions on our oil field in Kentucky. Also please do not forget, that NWO has already invested significant amounts in this projects.

Are you interested? Please send an E-Mail to ir@nwoil.org or a Fax to 001 302 674 3415. We will come back to you as fast as possible and will send you further information. Please keep in mind that the drilling company confirmed the prices until end of January 2017 and after this date drilling prices will increase.

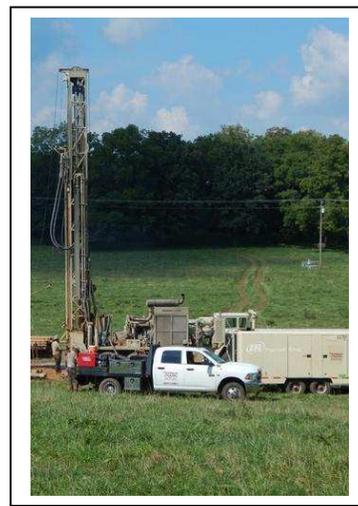

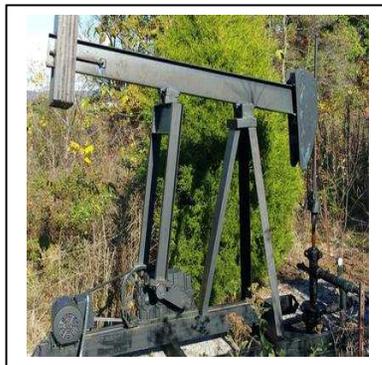

This offer has been created exclusively for our shareholders. But if you know friends and family members who will also be interested, we hereby offer that you recommend this offer also to this persons. By successfully finalization of an investment through this parties you will be obliged to get a stake in this project (0,6% Working Interests WI = 0,36% Net Revenue Interests NRI) in your name in the value of an investment sum of 500 US\$ as a thank-you gift.

Last but not least please let us mention, that

- an independent professional third party have drilled a successful well on our Bowling Green-lease last December which came in with a **daily production of 10 barrels of oil** per day
- drilling company **guarantees for hitting a commercial well** or will drill another hole for free

With best regards

Your
NORTHWEST OIL & GAS TRADING COMPANY, INC.
